FEATURES

One of the main highlights of our Villa is its spacious common areas, starting with a large living room accessible from four different entrances: the kitchen, the front terrace, the back terrace, and the pool area.

COMMON AREAS

The kitchen is fully equipped with a large collection of tableware and all types of cooking utensils, as cooking is one of the main pleasures of the house. It features top-brand appliances, two 80cm refrigerators, a Nespresso coffee machine, a Thermomix, and more.

The front terrace and BBQ area are seamlessly connected to the living room, dining area, and kitchen through large sliding doors, creating a nearly open-plan 300m² space. This feature makes our Villa one of the most unique, comfortable, and spectacular houses of the island.

At the back of the house, you'll find one of its most special features: a covered BBQ area, the perfect spot to enjoy unforgettable gatherings with friends and family.

The Villa boasts a large infinity pool (9x4 meters) with stunning sea views, a chill-out area, and sun loungers, where you can relax while listening to the birds in the surrounding forest. The pool also has a convenient toilet to avoid entering the main house.

The Villa is surrounded by an expansive garden, home to various local plants and native species. In addition to the lush vegetation, there are several terraces where you can relax and enjoy different perspectives of the landscape.

Next to the kitchen, you will find a summer terrace, perfect for breakfast or an appetizer meal, featuring a wooden table for 12 guests and a sofa with sea views.

On the top level, there is a 180m² solarium with various chill-out areas, including an exclusive lounge space with a traditional Ibiza juniper-wood roof and an outdoor sofa area. This level also features an outdoor kitchen, allowing you to cook while enjoying breathtaking views of San Antonio Bay. Not everyone can say they've cooked with a view like this!

At an even higher level, you'll find another chill-out space, where you can spend hours watching the boats sail across the bay while sipping a cocktail from the comfort of a 2x2m daybed.

RETREATS

Yoga, Pilates, meditation, or even natural cooking workshops feel as if they were made to be practiced in our Villa. The vast solarium, outdoor kitchen, and countless spaces for relaxation provide the perfect setting for wellness retreats. If you need a group retreat organization, we collaborate with nearby centers to tailor the experience to your needs. For individual activities, we will be happy to assist you with additional recommendations and reservations.

We have a boat available for our guests, El Margarita (@margarita_llaut), a traditional Ibizan Llaut—the kind boat you've often seen in postcards and movies.

This is a classic boat, entirely built on the island in 1986 by a local Mestre d'Aixa (master boatbuilder) using native wood.

Today, it has been fully restored to offer an unforgettable sailing experience in the Bay of San Antonio, the best sailing area on the island, featuring the most spectacular sunsets with Conejera and Illa des Bosc in the background

We wish you an unforgettable stay at our Villa and a wonderful vacation in Ibiza!
